

Overview: The White House

A traditional white-painted Trulli, standing within a large plot of rural land populated with almond and olive trees.

This property is set in a very large plot which is populated with almond and olive trees. It is well placed for easy access to Ostuni and the coast.

On completion of the development there will be three bedrooms and two bathrooms (one en suite). The property will retain such delightful features as the original bread oven set in its own, small 'bake-house'.
